HOSTPLUS

Understanding the important steps of analysis, reporting, action and compliance

This course assists supervisors and managers who are responsible for the collection of gaming data and reporting thereof.

Learn how to:

+ Retrieve data from gaming machine and system using retrieval system according to legislative requirements and organisational procedures.
+ Record data using correct methods and terminology according to legislative requirements and organisational procedures.
+ Analyse data according to legislative requirements and organisational procedures
+ Perform cash flow analysis according to the correct mathematical equation, including analysis of metered information and cash data.
+ Identify variances and determine possible causes.
+ Prepare reports and present them to the appropriate person.
+ Minimise waste in preparing reports.

Participants will receive a **Certificate of Attendance** on successful completion of course requirements.
